

## 2022 Surgical Services Enhancement Campaign

The 2022 Androscoggin Valley Hospital (AVH) Surgical Services Enhancement Campaign is underway. Help us enhance our renovation and improve your surgical experience! Your financial contribution toward our Surgical Services Suite expansion will help us continue to fulfill our Mission of Delivering the Best Healthcare Experience to Every Patient, Every Day. We want the best environment for you and your loved ones while continuing to provide privacy, comfort and confidence. Our experienced team, which has decades of combined experience, is right here at AVH; close to your home in the North Country.

Your financial support of this enhancement will help improve the experience of our surgical patients and contribute to an updated, more aesthetically pleasing environment. Simply put, you can help ensure that the appearance of our facility (in existence for nearly 50 years!) is consistent with the high quality care that you have come to expect from AVH.

With a multi-disciplinary surgical team that has decades of experience and which treats more than 1,500 patients per year, we remain committed to personifying the AVH Values of Service, Quality, and Integrity, among others.

## AVH Surgical Services Enhancement Campaign

2022

*Committed to our community.*

*Enhancing our facilities.*

*Working together.*

## Our Future

AVH is enhancing and expanding our Surgical Services suites, adding an additional 3,500 square feet to provide our patients with:

- Enhanced patient privacy
- An expanded waiting area for family members and other visitors
- Closer proximity of operating physicians to the surgical suites
- New location for convenient registration
- More linear patient flow, improving efficiency
- Larger, more modern, aesthetically pleasing, and private Pre-Operative and Post-Operative areas to include new flooring, LED lighting, electrical, and plumbing.

## From Our Orthopaedic Surgeon

*"The beauty of the surgical services enhancement is that it is all about the patients and their experience with us. It will be a place where our staff will welcome the patient into a controlled, quiet setting both before the surgery and after the procedure. The emphasis here at AVH is all about the patient. All will experience the AVH difference: compassionate caring for our community of friends and family."*

**-Dr. Mahlon Bradley
